PROFESSIONAL SUMMARY

Software Engineer with 5 years of experience, including 2 years as a freelance Web Developer. Proven ability to design and deliver scalable software solutions, build responsive web applications, and write clean, efficient code to meet business and client needs.

WORK HISTORY

Software Engineer, 05/2022 - Current

Bytestrone India Pvt Ltd – Kochi

Designed and developed web and mobile applications using Angular, React, Node.js, Flutter, and Ionic
Built and maintained scalable solutions in FinTech, Travel & Tourism, and Educational sectors
Implemented RESTful APIs and microservices with Node.js for seamless backend–frontend communication
Delivered cross-platform mobile applications with Flutter and Ionic, ensuring consistent user experience
Collaborated with product managers and designers to translate business requirements into technical solutions
Optimized application performance to improve load times, responsiveness, and scalability
Integrated third-party services, APIs, and payment gateways to support business-critical functionality
Conducted code reviews, testing, and debugging to maintain code quality and reduce production issues

Freelance Developer , 03/2020 - 05/2022

Freelancer

Designed and developed eCommerce websites with secure payment integration and user-friendly interfaces.
Built mobile applications with responsive, cross-platform functionality tailored to client requirements.
Created static websites for small businesses and personal portfolios, ensuring optimized performance and SEO best practices.
Collaborated directly with clients to gather requirements, propose solutions, and deliver projects on time and within budget.
Maintained and updated client websites to improve functionality, security, and user experience
